

## SWWS 2005 PC Co-chairs' Message

Welcome to the Proceedings of the first IFIP WG 2.12 & WG 12.4 International Workshop on Web Semantics (SWWS'05). This book reflects the issues raised and presented during the SWWS workshop which proves to be an interdisciplinary forum for subject matters involving the theory and practice of web semantics. A special session on Regulatory Ontologies has been organized to allow researcher of different backgrounds (such as Law, Business, Ontologies, artificial intelligence, philosophy, and lexical semantics) to meet and exchange ideas.

This first year, a total of 35 papers were submitted to SWWS. Each submission was reviewed by at least two experts. The papers were judged according to their originality, validity, significance to theory and practice, readability and organization, and relevancy to the workshop topics and beyond. This resulted in the selection of 18 papers for presentation at the workshop and publication in this proceedings. We feel that these Proceedings will inspire further research and create an intense following. The Program Committee comprised: Aldo Gangemi, Amit Sheth, Androod Nikvesh, Mihaela Ulieru, Mohand-Said Hacid, Mukesh Mohania, Mustafa Jarrar, Nicola Guarino, Peter Spyns, Pieree Yves Schobbens, Qing Li, Radboud Winkels, Ramasamy Uthurusamy, Richard Benjamins, Rita Temmerman, Robert Meersman, Robert Tolksdorf, Said Tabet, Stefan Decker, Susan Urban, Tharam Dillon, Trevor Bench-Capon, Usuama Fayed, Valentina Tamma, Wil van der Aalst, York Sure, and Zahir Tari.

We would like to express our deepest appreciation to the authors of the submitted papers and thank all the workshop attendees and the program committee members for their dedication and assistance in creating our program and turning the workshop into a success. Producing this book would not have been possible without the much appreciated contribution of Kwong Lai.

Thank you and we hope you will enjoy the papers as much as we do.
